PROFESSIONAL SUMMARY

Civil engineering student nearing completion of a B.E. degree, with strong academic grounding and practical exposure in GIS mapping, structural modeling, geotechnical analysis, and data-driven engineering workflows. Demonstrated leadership through club responsibilities, event coordination, and student engagement activities. Skilled in AutoCAD, Revit, ArcGIS, Google Earth Engine, Python, C Programming, and Advanced MS Excel, with a strong interest in design, drafting, planning, and project development in a professional civil engineering environment.

EDUCATION

Bachelor of Engineering in Civil Engineering

Himalaya College of Engineering, Tribhuvan University, Chyasal, Lalitpur

2021 - 2026

+2 Science

Aroma College, Bharatpur

2019 - 2021 | GPA: 3.5/4.0

PROJECTS

Flood Estimation Using IDF Curves Derived from Bias-Corrected Satellite Rainfall Data in Data-Scarce Regions

- Final year project focused on rainfall analysis and flood estimation in data-scarce regions.
- Applied analytical methods to derive IDF curves and interpret hydrological behavior using satellite data.
- Strengthened practical understanding of GIS, data analysis, and engineering decision-making.

Pump Storage Hydropower Model

- Developed a conceptual model to study hydropower planning and energy storage principles.
- Applied engineering logic to understand system behavior and design considerations.

LEADERSHIP AND EVENT EXPERIENCE

Treasurer, Himalaya Civil Club | Dec 2024 - Dec 2025

- Managed financial responsibilities and supported club activities with accuracy and accountability.
- Contributed to planning and coordination of student-led technical initiatives.

Member, Himalaya Civil Club | Dec 2023 - Dec 2024

- Supported academic and technical club activities through teamwork and active participation.

Event Coordinator/Organizer, Himalaya Exhibition 2023 | Jun 2023 - Jul 2023

- Coordinated event planning, logistics, and team communication for smooth execution.
- Assisted in organizing schedules, responsibilities, and on-site event flow.

Troitsky Bridge Building Competition | Jul 2023

- Participated in a structural design-and-build competition, strengthening teamwork and practical problem-solving.
- Gained exposure to bridge behavior, load transfer, and collaborative design thinking.

Popsicle Bridge Competition | Jan 2025

- Participated in a model bridge competition, reinforcing structural concepts and team coordination.

VOLUNTEERING EXPERIENCE

Nepal Scout | 2014 - 2019

- Built discipline, teamwork, leadership, and community engagement through long-term volunteer involvement.

Event Volunteer, Academic and Student Events

- Supported event setup, guest coordination, logistics, and on-site assistance during student activities and exhibitions.
- Contributed to smooth event execution by responding quickly to team and operational needs.

TECHNICAL SKILLS

- GIS mapping and geospatial analysis
- Site surveying and resource allocation
- Structural modeling and design fundamentals
- Geotechnical analysis
- Civil drafting and planning
- Data processing and analytical reporting
- Team coordination and logistical planning

SOFTWARE SKILLS

- AutoCAD
- Revit
- ArcGIS
- Google Earth Engine
- Python
- C Programming
- Advanced MS Excel

STRENGTHS

Analytical thinking, adaptability, leadership and responsibility, logical problem-solving, strong learning mindset, and team coordination.

PROFESSIONAL STATUS

Professional License: Not obtained (student)
